

TLH003 / TLH005 2x speaker stand for Sonos Era 100/300

Kunststofffüße für feste Böden
plastic pads for solid surface

Stahlspikes für Teppichböden
steel spikes for carpeted surface

Description

The TecLines TLH008BE speaker stands provide a practical solution for securely positioning Sonos Era 100 and 300 speakers. With a fixed height of 777 mm, they ensure optimal speaker placement for balanced sound. The sleek design fits seamlessly into various interiors. These stands support up to 5 kg, using an M5 speaker connection for secure mounting. Integrated cable management keeps wires hidden for a tidy look. Equipped with plastic feet for solid floors and steel spikes for carpets, they guarantee stability on different surfaces. TecLines – Intelligent technology by creative minds.
